

MULTIMEDIA LIBRARY

The multimedia library at Purash Kanpur Haridas Nandi Mahavidyalaya is an open access digital facility that houses various multimedia materials including images, videos, audio, and other content aside from conventional text documents. It serves as a centralized storage system for organizing, managing, and storing digital multimedia assets.

The main objective of the multimedia library is to offer accessible and engaging educational and informational materials, including audio, video, and interactive features, to improve the user experience and accommodate diverse learning preferences.

The multimedia library provides a curated selection of high-quality educational videos and documentary films.

The library is equipped with a data storage system and a complete arrangement currently involving a computer and headphones.
